

Topic

Children will learn about the layers of the rainforest and the animals that live there. They will create images using water colours of a variety of wildlife indigenous to the rainforest.

English

Children will use their knowledge of the rainforest and deforestation to write a biased argument. They will also be taking inspiration from the book: Journey to the Last River, to create a variety of writing.

Science

Children will learn about living things and their habitats considering how animals and plants are classified. They will also begin to think about how animals are suited to their environments.

Term 4 and 5

How do the Rainforests Affect our World?

How to help at home

Homework

Children will be given three pieces of homework (Maths, Reading and either Spelling or GPaS) on a Friday.

Reading

Children are working towards competing in our class reading race to read the most throughout each term.

Computing

In term 4, children will be creating 3D models on their chrome books. During term 5, children will apply their programming skills when using micro: bits.

Maths

Children will continue weekly arithmetic skills to practise and build on their prior knowledge. They will be covering a variety of topics this term including: fraction and percentages of amount, angles, geometry co-ordinate grids.
