Saving God's World*

This week St John's Class have been saving God's world! We discovered the pond area was covered in litter, we were all so shocked! We worked incredibly hard to clear the area and then wrote posters to put up around the school to remind our community to put their rubbish in the 'b-i-n!' We thought about how this could harm the wildlife that live there. We also learnt about how Jesus helped 'The Man at the Pool'. We thought about how we could care for others and made some of our friends who were feeling poorly some Get Well Soon cards. Well done St John's class for showing great resilience this week.
